Doctor profile

Dr. Emma Ravichandran BDS, MFDS, the multi-award winning aesthetic medicine specialist, is co-founder of the Clinetix Medispa group, the Association of Aesthetic Practitioners (ASAP) and the Aesthetic Training Academy (ATA). With a background in paediatric dentistry and 14 years of excellence in Aesthetic Medicine, Emma possesses a peerless range of expertise and achievements.

Since its inception in 2009, Clinetix has progressed to become one of the world's most ethical, pioneering and patient-focused clinical groups. Emma's reputation and dedication to the highest standards in practice have led to guest lecturing, at venues such as the RCS (London & Scotland), Key Opinion Leader roles, and articles in a wide range of publications. All these activities have promoted and shared the safe and effective application of the latest aesthetic techniques and products.

In 2018, Emma was honoured with the award of Medical Practitioner of the Year at the prestigious MyFaceMyBody Awards. Emma previously achieved renown as Aesthetic Dentist of the Year and, with her co-founder and team, as Best Clinic Scotland at the Aesthetic Awards. Recognition also came in 2017, when the ATA became the only HIS regulated service of its kind.

In 2019, Emma and her team received 11 national awards and the MyFaceMyBody Global award for Best Aesthetic Clinic.

Following the foundation of the ASAP in 2009, Emma has assisted in the development of countless numbers of practitioners, via online forums and annual conferences. Throughout the many strands of her professional life, Emma places the ultimate benefits to patients at the heart of all her professional and clinical decisions.
